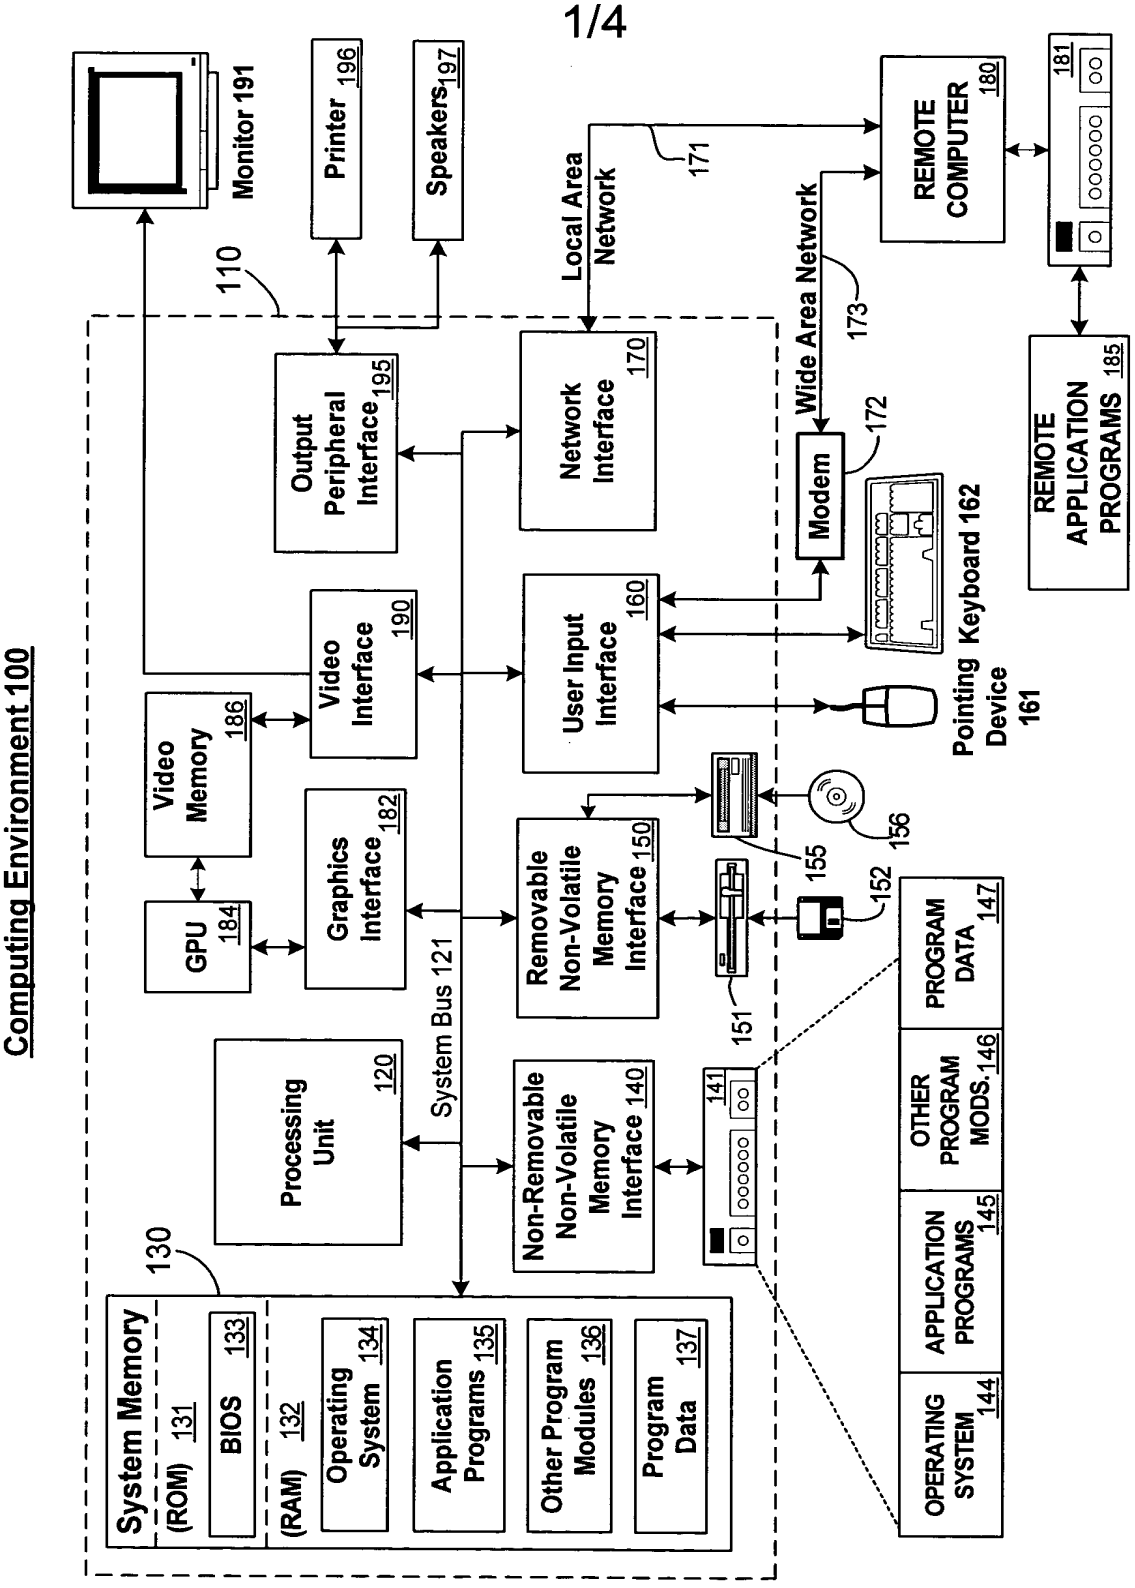

FIG. 1

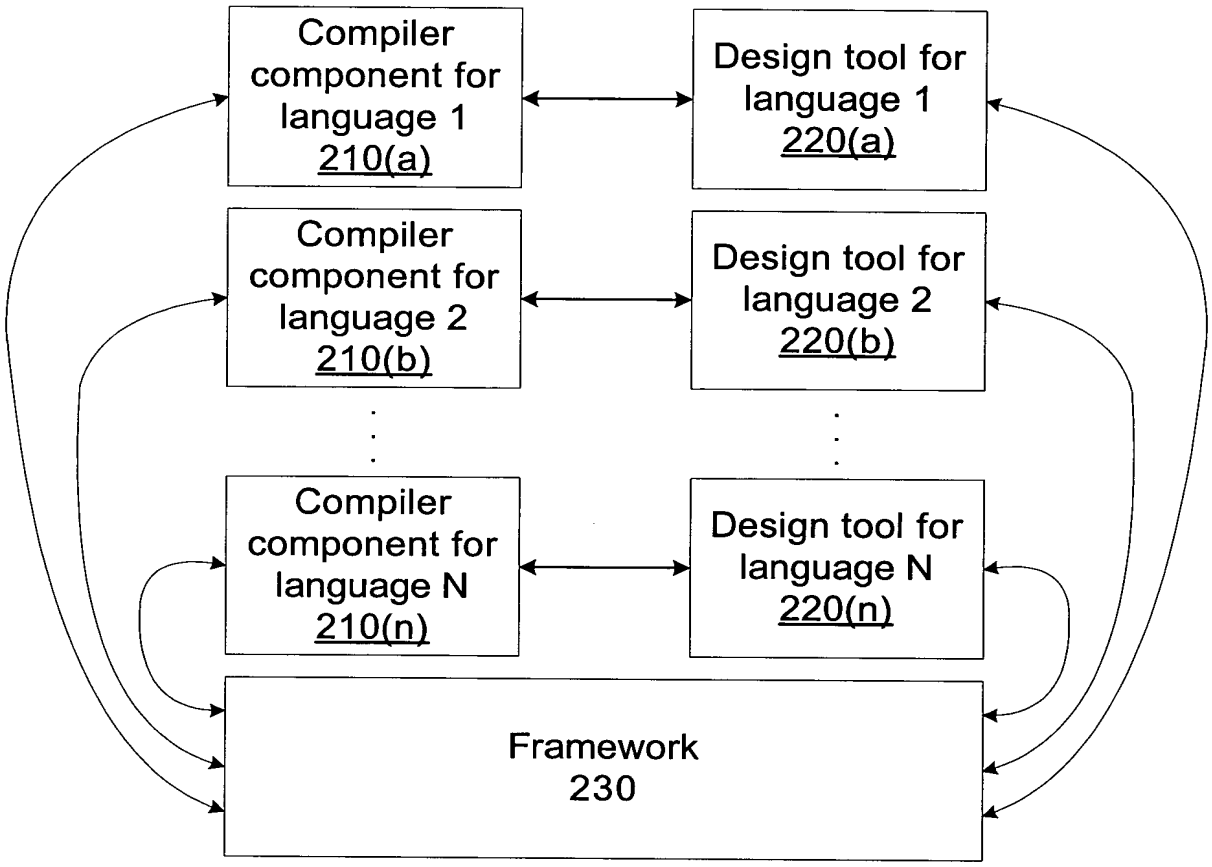
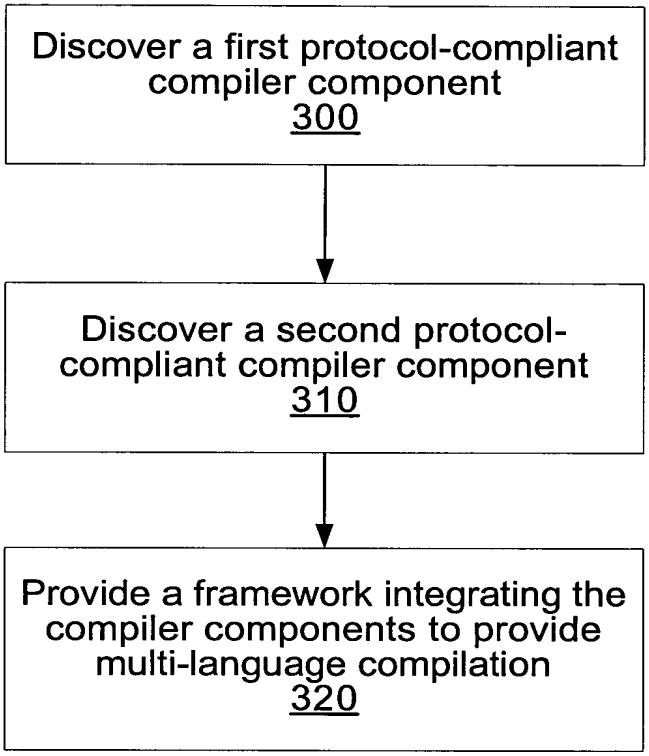


Compiler component for language 1 210(a)
Design tool for language 1 220(a)
Compiler component for language 2 210(b)
Design tool for language 2 220(b)
Compiler component for language N 210(n)
Design tool for language N 220(n)
Framework 230

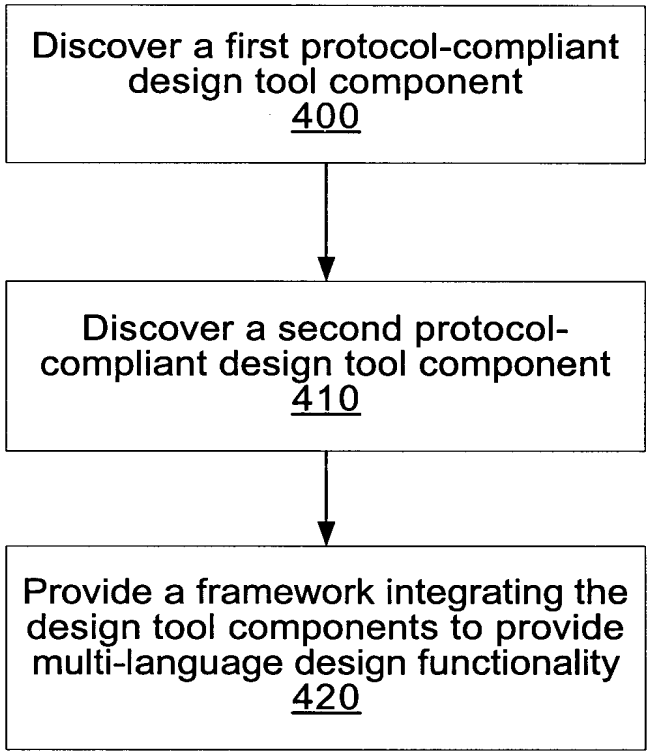
FIG. 2

3/4



Discover a first protocol-compliant compiler component
300
Discover a second protocol-compliant compiler component
310
Provide a framework integrating the compiler components to provide multi-language compilation
320

FIG.3



Discover a first protocol-compliant design tool component
400
Discover a second protocol-compliant design tool component
410
Provide a framework integrating the design tool components to provide multi-language design functionality
420
